DEEPAK KUMAR

WEB DEVELOPER

Experienced web developer with demonstrated history (7+ years of experience) of working in the various technology like **Angular 2+, React JS, Redux, JavaScript, GitHub, Node JS, HTML, CSS**. I have good experience in analyzing requirement and building application.

EXPERIENCE

Senior Web Developer, Infosys limited.
APR 2019 - till now

PROJECT: B2B EPOM
   B2B EPOM is for tracking B2B transactions and change the data related to vendors. Trigger the different state to test the E2E transaction in Non-Prod Environment. This platform also helps to manage user access for other applications.

PROJECT: Service and Logistic Operation Document
   This application enables to upload and download B2B transaction related data based on some input.

PROJECT: Vendor Automation Tool (VTA)
   VTA tool provide ability to add test data and execute the test cases. Here, we fetch test case details from UI Path (an environment, where test case details and data and bots are stored to execute the test cases)

 PROJECT: E-Signature
This project was for onboarding the customer and sign the document digitally and track the onboarding process.

TECH USED: JavaScript, **React JS (3 yr+)**, **Angular 2+ (1yr+)**, CSS, HTML, GIT, CI/CD Pipeline, Mongo DB

MY ROLE
- Managed the web development team and mentored junior web developer to improve web application quality and efficiency.
- I was part of requirement analysis, solution designing and development of the variety of applications.
- Worked closely with clients to understand their needs and goals and translate them into effective solutions.

Software Engineer, Mindtree limited.
DEC 2015 – APR 2019

PROJECT: CIS PEOPLEHUB
Manage the Mindtree employee's data and enable users to access their data.

PROJECT: Orchard Management System (OMS)
Goal of project was to give an online platform for Mindtree training center where trainers can give ask and access trainee progress and many more.

TECH USED: JavaScript, Angular 2+ (1yr+), **React JS(1yr +)**, CSS, HTML, GIT, Bootstrap

MY ROLE
- Contributed to application design and development.
- Added new functionality to web page and enhanced the existing functionality.
- Worked on rest API development.
